AllerAir Industries

AirMedic+

From $799.98

Available colors:
Black, White, Sandstone

The AirMedic+ is the product of over a decade of air purification engineering experience. With no untested technology, no dangerous substances, the AirMedic+ redesigned internal structure drastically increases the particle filtration effectiveness of the air purifier. Using a specially-sealed European motorized impeller, the AirMedic+ is the ultimate particle filtration device. This unit also employs a variable speed motor to allow the owner to have complete control of his or her indoor environment.

Activated Mac-B Carbon Filter

- 18 lbs of MAC-B activated carbon for chemical and odor removal
- 2" deep carbon bed

Medical Grade HEPA

- Superior engineering and design optimizes the effectiveness of the HEPA filter. This unit tests noticeably better than the set standards for HEPA filters.
- Better than 99.97% effective at removing particles 0.3 microns in size

Pre-Filter

- Captures large particles

Features:

- Specially-sealed motorized impeller increases particle filtration effectiveness
- Variable speed motor to for added personalized controls
- All-metal housing
- 360° degree air intake
- Absolutely no neoprene, rubber or Styrofoam
- Valued-added design - separate carbon and HEPA filters allows each to be changed independently
- 400 CFM blower

Maintenance:

Each indoor environment is different. The instructions below are estimated average times.

- Vacuum or change pre-filters every 3-6 months
- Replace HEPA filter after 5 years
- Replace carbon filter after 2 years
